Mr. M. J. Veneroso
Douglas Aircraft Company
3855 Lakewood Boulevard
Long Beach, California 90846

Dear Mr. Veneroso:

Please refer to your letter dated 4/22/77 regarding shipping regulations governing Hooker Fluorolubes S-30 and GR-544.

DPM 2481
Neither of these Fluorolubes are regulated as they do not come under the Hazardous Materials Regulations of the Department of Transportation. They are described when shipping via railroad as chemical NOIBN and when shipping via truck as chemical NOI.

We are enclosing copies of our Material Safety Data Sheets for both Fluorolube Oils and Greases for your perusal.

If we may be of further assistance to you in the future, please contact us.

Very truly yours,

J B Wagner
